Introducing MUSEUM ACCESS Profiles

Introducing our new series Museum Access Profiles. We've met so many interesting and talented folks in our travels to America's museums that we decided to share THEIR journeys with our viewers. We hope you find them as inspiring as we do!

This month's expert is Mystic Seaport Museum's President, Steve White.

Museum Access Touches an Angel...A Blue Angel!

We had the opportunity to see a real Blue Angels aircraft in the restoration hangar during our visit to the Intrepid Sea, Air and Space Museum in NYC. This Blue Angel #5 was sharing the space with an impressive A1-SkyRaider prototype, built during WWII and used extensively during the Korean War. Watch episode clip [here](#).

Out and About...

Leslie recently had the opportunity to speak to a full house in the Flammer Theatre at The Wild Center Nature Museum in the Adirondacks. "It was such a treat to go back to this extraordinary museum, see old friends, share Museum Access stories and see many of the monarch butterflies begin their long journey to Mexico".

-Host, Leslie Mueller

After 10-14 days of munching on milkweed leaves (Yes! Plant them in your yard), a monarch butterfly emerges from its caterpillar form. By early Fall, this generation of monarchs begins its incredible 2,800 mile journey to Mexico. Safe travels little friends!

Behind-the-Scenes

The Museum of International Folk Art

"I had no idea the breadth of the collections on view in this beautiful museum in Santa Fe, New Mexico. I knew it housed the largest collection of folk art in the world, but I never realized how many different countries interpret their cultures in so many different artistic ways. I can't wait for everyone to see this exciting episode in Season 3 of Museum Access".
