

## The American Heritage Museum

provides an immersive look into our military history from WWI through present-day conflicts, focusing on transportation technology.

### Did Ya KNOW?

Detroit automakers led the way in converting facilities for war production beginning in 1942. Chrysler built America's first factory specifically built for mass

**production of tanks.**

The number of female workers in defense industries **grew by more than 450%** during WWII.

### Folding wings

on a jet allow it to occupy less space in a confined hangar. They are typical of carrier-based aircraft that operate with limited deck space.

## Xtra Fun, Xtra Credit!

For adventurers 5+

### Make your own American flags!

#### Materials Needed:

- Popsicle sticks
- Glue gun
- Acrylic paint
- White paint pen

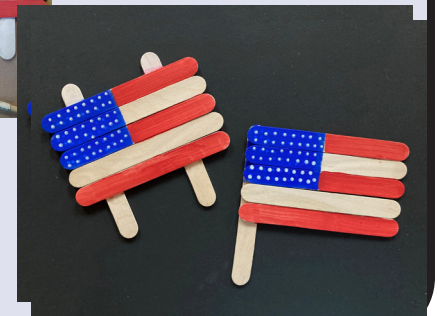

**Step 1** Arrange popsicle sticks onto base stick as shown. Glue into place.

**Step 2** Paint the rectangles in top left corners blue and paint every other stick red. Let dry.

**Step 3** Add stars with white paint pen. Let dry.

**Proudly wave your handmade flags!**
