As Season 4 begins to roll out for viewing on Public Television / PBS stations nationwide, we're sending a big thanks to the U.S. Dept. of Education and [DCMP](#) for providing closed captioning and video descriptions of each new episode so *everyone* can enjoy Museum Access.

Thanks for sharing Kyle. We shot there in Season 1 and totally agree that it's a great place for lovers of Mother Nature AND art lovers alike.

## Good News, But BUNDLE UP!

resources and the society of whalers.

Union Pacific is taking action to alleviate the supply chain congestion in the U.S. Adding weekend hours, \$60 per-container refunds to ocean carrier companies and they have even developed a new app that helps drivers cut down the time it takes to drop off and pick up intermodal containers. Union Pacific is just one piece of the supply chain but every new idea will help right? Learn more about the history of the railway system during our visit to the [Illinois Railway Museum](#). ### Behind-the-Scenes: The West Point Museum, West Point, NY

“After our enlightening conversation with David Reel, director of the West Point Museum, we had the opportunity to speak with 3 impressive cadets in the nearby Visitor Center. Tyler Shekleton, Isabelle Embola and Reilly McGinnis are 3 capable young leaders that we can all be proud of. It was an honor meeting each of them and seeing their pride in West Point. I am anxious to follow their military journeys as they serve our country. I know that our Season 4 viewers will enjoy learning more about them too”
