Behind-the-Scenes: McCormick Bridgehouse and Chicago River Museum

*"As many times as I've crossed the Chicago River through the years, I never knew that there was a great museum located above the Chicago River right on the famous Michigan Ave. bridge . Yep, **The McCormick Bridgehouse and Chicago River Museum** is actually located in one of the 4 stone towers where Michigan Ave. meets Wacker Drive. It was such fun not only learning about the river itself but also the history of the movable bridge system that connected Chicago's North side with the South side so many years ago."*
