Discovery Spotlight

As educators get ready for the summer, we're thrilled that **Discovery Education** has decided to spotlight our series for the month of May on their popular on-line platform. What a great way for students to extend their learning while enjoying their summer vacations.

Salute to West Point

We are proudly shining the light on the beautiful **West Point Museum** overlooking the mighty Hudson River. It's the very first museum on the production schedule for Season 4. We were blown away by the truly unique collection that honors America's military history and the history of West Point. Stay tuned for airings on Public Television and PBS stations nationwide in 2022. In the meantime, we are on the road to visit museums across America!

Behind-the-Scenes: The Cloisters - New York City

"Going into the private planting shed at the Cloisters with

Caleb Leech was a thrill after exploring the incredible Medieval Gardens and learning firsthand about the constant attention these magical gardens require. From medicinal plants to pleasure gardens, Caleb's care shows his encyclopedic knowledge of plants from the middle ages. Incredible!"
