We've Come a LONG Way!

Can you believe that this unusual wooden contraption was the state-of-art way to buy shoes in the early 1900s? The 'X-Ray Shoe Fitting Machine' used the brand new x-ray technology to accurately fit children's shoes for many years until the negative effects of radiation was discovered. Learn more about the incredible history of x-rays in our episode at the [International Museum of Surgical Science](#). Click [here](#) for a preview.

Covid & Creativity

Who said that art students can't be creative during Covid? Here are some wonderful self-portraits with socially responsible face masks in place. Bravo kids!

This Alaskan Native Parka is part of the spectacular collection at the [Museum of International Folk Art](#) in Santa Fe, NM. It's made of hand stitched seal gut to keep it's wearer dry. It is also embellished with fur and the tuft feathers of the native auklet bird. This beautiful artifact is rarely on view so we went behind-the-scenes into the storage area to take a peek.

Behind-the-Scenes: The J. Paul Getty Museum

*"Once I digested the spectacular exterior of the Getty Museum in the foothills of the Santa Monica Mountains in L.A., it was a treat to see the 'In-Focus: The Camera' exhibition with curator Paul Martineau and visit the private research area to see some extraordinary artifacts that signaled the very beginning of the 'moving picture' industry."
