**Giant of the Art
World Leaves Us**

With the stroke of a pen in September 1947, President Harry S. Truman created the U.S. Air Force as a separate branch of the U.S. military. It began a 3 yr. transition period when soldiers became airman and army air fields became air force bases. We salute these Americans that deliver airpower anytime, anywhere in defense of our nation. Who hasn't smiled at one of Claus Oldenburg's giant sculptures of everyday objects? We recently lost this Swedish-born American Pop Artist at 93. He passed in his SoHo home & studio in NYC having influenced a generation of artists. Thank you for making the everyday monumental Mr. Oldenburg. May you rest in peace.

Behind-the-Scenes: The Dali St. Petersburg, FL

*"**The Dali** has to be one of the most interactive museums we've visited.*

How fitting that a museum

dedicated to such a trail blazing artist would incorporate cutting edge technology for their guests to experience including talking holograms of Salvador Dali actually speaking to you and taking 'selfies' with you plus paintings that come alive before your eyes. I'm absolutely sure he would've approved. Seeing beautiful archived jewelry Dali designed was an extra special treat too!"
