OUT & ABOUT...
 Sweet Dreams

Center Stage:
 The J. Paul Getty Museum

The **J. Paul Getty Museum** with it's world class art collection is hands-down one of the most beautiful museums we have ever visited. Located in the foothills of the Santa Monica Mountains, it graces 86 acres of landscaped gardens and terraces with breathtaking views around every corner. Architect Richard Meier certainly created a work of art for all those that visit. Put it on your 'must see' list next time you're in L.A. Check out our episode on your local Public Television / PBS stations or [Amazon Video](#) anytime.

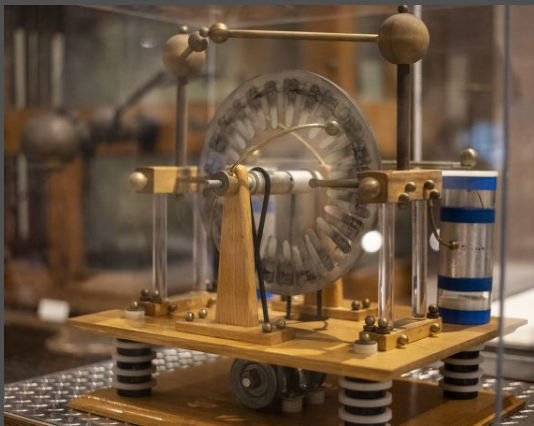

Museum Access Moment

We always say that "Art is everywhere if you just look closely". Well, this work of art deserves a double take. Painted on a wall in Atutanqui, Ecuador by street artist Daniel Cortez. Bravo Daniel! Surprised this lady can sleep through the passing traffic

Much of our medical technology advancements began with the development of nuclear medicine? Many diseases can be diagnosed and treated with small amounts of radioactive material.

Thanks for sharing Bill. How wonderful to be immersed in Impressionism in it's birthplace, AND to experience it alone!

E-Mail us your favorite Museum Moment for a chance to be included in our INSIDER Newsletter too!

Behind-the-Scenes: Norwalk Fire House

"After shooting at the [New York Fire Museum](#) and learning about the history of firefighting, I decided to visit the impressive Norwalk Fire Dept. Station 2 in Norwalk, CT. to see what present day firefighting is all about. Wow! What an eye-opening visit! I'll never pass a fire house without giving a little salute to all of the brave and capable folks that work there. God bless them all.
