

WHERE LEARNING IS AN ADVENTURE!

## Cartoons and animation have been popular worldwide for decades.

The Masterpieces of Cartoon Art exhibition at the Bruce Museum takes us behind-the scenes in this thoroughly entertaining world!

### Did Ya KNOW?

Printing technology reached a pinnacle at the turn of the 20th Century and the Golden Age of Illustration was born.

Newspaper comic strips like 'Silo and Sam' were generally 1-6 frames.

Cartoonists generally used a **3-step process** in creating their work. The idea or gag, the pencil sketches and the final lettering and inking.

## Xtra Fun, Xtra Credit!

For adventurers 9+

### Doodle On!

Some of our best ideas come from doodling.

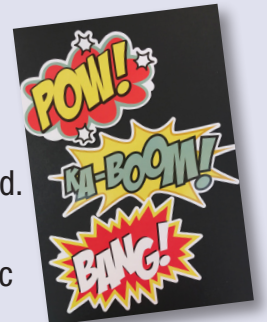

Why not take your favorite doodles and create an official Doodle Book of your own?

### Bam! Pow! Zoom!

Words and how they look are a big part of the comic book world.

Try your hand at creating your name or favorite words in comic book style?

### Build it Test it Learn it!

Perfect for jr. cartoonists and animators, this Flip Book Kit includes animation paper, flip books, LED light tablet for tracing. All you need to add is a little imagination!
